

YUVA UNSTOPPABLE

Annual Report 2020-21

About Yuva Unstoppable

Yuva Unstoppable is a reputed non-profit organization founded by Amitabh Shah in 2005. It empowers various disadvantaged sections of the society in India (with better sanitation and hygiene facilities, improved drinking water facilities, scholarships, digital classrooms and behaviour-change training). We have impacted over 700,000 less privileged children and transformed over 1,700 schools since 2005 in partnership with 100 plus top corporates.

Journey

The year was 2005. After declining a Wall Street job offer, Amitabh Shah and a group of zealous individuals started Yuva Unstoppable as a youth-led and youth-driven organisation aiming to positively change the lives of children and underprivileged youth. As Yuva started moving toward its development goals, the then 23-year-old Amitabh strongly believed that education must assume the highest priority in India's development mission. He found there was an alarming shortfall within the system. The aim was to transform the lives of underprivileged children and youth by maximising impact in the education sector. Since its inception in 2005, Yuva has launched several programmes such as the School Transformation programme (building WASH facilities), the Education Scholarship scheme

Mission :

To educate and transform the lives of children and youth in India by bridging the digital divide by providing devices and digital classrooms and developing sustainable infrastructure for clean water, sanitation, hygiene. Inculcate a sense of self-belief, confidence, gratitude, compassion and passion amongst the recipients.

Vision :

To transform 10,000 schools and positively impact 5 million children by 2027. To provide 10,000 scholarships to needy and deserving students in the next 5 years

Team

Amitabh Shah (Founder)

After an MBA from Yale University, Amitabh declined a Wall Street offer to work on the real streets of India. He started Yuva Unstoppable at the mere age of 23 with the sole focus of enabling and empowering youth to become changemakers of tomorrow.

He is the youngest Indian to win the US Government's Ellis Island Award.

Amitabh believes 'Gratitude, Self-Belief and Compassion' are the 3 pillars for a meaningful life.

Abhi Shah (Non-Executive Chairman)

Abhi Shah, an acclaimed entrepreneur and philanthropist, is the Founder & former CEO of Inc. 5000-listed Clutch Group, a leading Artificial Intelligence-powered Big Data Analytics firm. Previously, Mr. Shah served as Vice Chairman of Black Rock-backed Morae Global Corp.

Mr. Shah was named Entrepreneur of the Year by EY, Maverick of the Year and Executive of the Year by American Business Awards, Gold Winner at Best in Business International Awards, National Champion for the UK at European Business Awards, and Business Icon of India. He

has been featured on CNBC, Bloomberg, and Fox Business, and in the Wall Street Journal, Barron's, Financial Times, and a Harvard Business School case study.

Mr. Shah earned an MBA from Harvard Business School and has completed the Eisenhower Leadership Development program led by former US President George H.W. Bush, the Artificial Intelligence program from MIT, the Making Corporate Boards More Effective program from Harvard Business School and the Board Leadership Fellowship from NACD.

School Transformation Projects

A majority of government schools have dilapidated buildings that receive nominal amounts for maintenance. Basic facilities such as washrooms are unusable with no water connections, safety issues, no separate drinking water/ wash area, and dull ambiance resulting in poor motivation levels for students and teachers. This programme aims to provide and improve sanitation, drinking & hand wash facilities, and other infrastructure improvements essential for the running of a school and to create an atmosphere of cheer and motivation while learning. The programme will also set up fully equipped digital classrooms that can be used to enhance learning across different grades. Key components of the programme include – Sanitation (separate toilets for boys and girls), Hygiene (separate drinking & dishwasher area), Infrastructure (shade area, color work in school building), Digital Support (smart classrooms, tablets), and Behaviour Change Communication (BCC). Through this programme, we aim to make schools a better place to learn. This is facilitated by creating a child-friendly learning environment in government or government aided / municipal schools through infrastructure development and/or other infrastructure.

School Transformation via WASH

Poor sanitation, lack of access to clean drinking water, and inadequate personal hygiene are responsible for 88% of waterborne diseases among children in India. In the year 2012-13, we first conducted a survey in 35 schools and understood that they lacked a number of important facilities that are needed by a child for a proper education.

Of all the problems identified, the following were critical problems such as lack of proper sanitation, facilities, lack of hygiene, access to clean water and absence of a vibrant and motivating campus, were improved in the year 2021-22

Google Future Classrooms

In 2018, inspired by the Union Government's Digital India initiative, we added a new dimension to our School Transformation programme. Google Future Classroom is a smart classroom equipped with a Chromebook console, smart board, CPU, and technical kit, that gives students an immersive digital experience.

A programme manager appointed by Yuva conducts workshops where they teach students soft skills, technical skills, and basic computer literacy.

Digital Smart Class

education by increasing learning opportunities helps students acquire skills such as problem solving, familiarity with emerging technologies and self-motivation. Yuva's smart class programme equips schools with latest technology to conduct lessons on digital platforms, giving students an easy interface to learn crucial concepts. Teachers teach students on grade

6,7, and 8 on smart boards and students learn on tablets.

Water Harvesting Project

One of our key initiatives is the water harvesting project, which aims to provide clean, reliable water to communities. Through the water harvesting project, we work with communities to design and build water harvesting systems that capture and store rainwater for later use. These systems can be installed on rooftops, in open spaces, or other suitable locations, and are designed to be simple, cost effective, and easy to maintain. The benefits of water harvesting are numerous. It helps conserve water resources and reduce the need for costly and environmentally damaging water extraction methods. It also helps improve the financial stability of communities by lowering water costs and can help improve public health by providing a clean, reliable water source.

Renovation in School

Improving vital infrastructures in school required for comfort for the students such as
Installation of shade for Meal Area to avoid student to eat under sun , repairing of floor ,
Replacing benches and desks etc.

Smart TV Project

Installing Smart TV in school for better interactive studies for students especially for junior kids and also making studies Fun .

Peek Into the Pandemic COVID-19

Since the outbreak of Corona Virus in the country, we started exploring ways to advance this vision even in times of adversities. As a result, Yuva Unstoppable has become one of the first responders to the crisis. We concentrated our efforts in a two-way approach – tackling immediate challenges and future-preparedness.

Community Kitchen

The first step to combat the crisis was to address the immediate challenges like poverty and hunger. For this, we started community kitchens serving hot meals like '*Khichdi*' (cooked rice and pulses) to about 1500-2000 poor, hungry people every day.

Ration and Hygiene Kit Distribution

To the vulnerable sections of the society

3-4 for 1-2 months.

Gradually, in order to reach out to a larger number of vulnerable sections of the society suffering in these tough times, we joined hands with corporates and like-minded institutions to distribute family essential kits. These kits consisted of basic daily ration and hygiene essentials like rice, wheat flour, pulses, spices, soaps, sanitizers, face masks, etc. These kits last a family of

To the frontline warriors

- Unstoppable Police Project – Under the project, we distributed hygiene and safety kits and Personal Protection Equipment (PPE) kits for police personnel and their family members. The kits consisted of basic safety equipment like hand wash, hand sanitizers, masks, gloves and a thank you note for their incredible spirit and efforts in service of the nation.

- In addition to this, we also distributed PPE kits among the health workers and media personnel.

Janta Mentorship

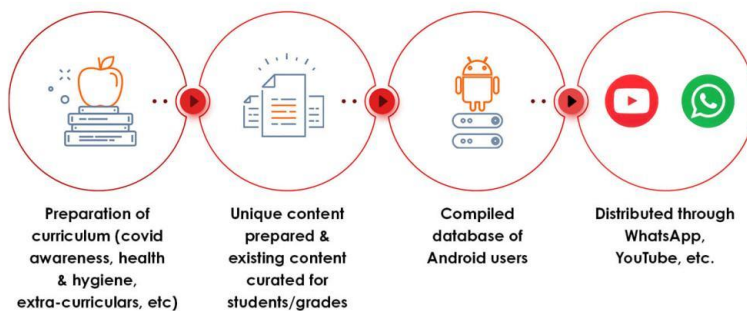

It virtually connects talented but needy beneficiaries of Yuva Unstoppable's Educational Scholarship Program with mentors from different walks of life for one-on-one or group mentoring sessions. The mentors range from top corporate leaders and employees to sportspeople,

entrepreneurs, doctors and counsellors, engineers, and people from many more fields. The idea is to mentor and motivate the scholars to stay safe, healthy, positive, and productive while learning something new during lockdown. Some of the major focus areas include: soft skills, career counselling, financial literacy, effective communications, corporate

Remote Learning

Learning Unstoppable

The world may have come to a halt, but learning must never stop. To cope successfully with government school closures and consequent gap in learning, we started teaching students online through different modes of ICT. We also do capacity building sessions for teachers and conduct online workshops and competitions to

engage students in a fun-filled manner. We also gave tablets & other digital devices like pre-owned PCs, laptops to municipal school students supported by Yuva. For more details you can refer individual program documents

Building Homes for the Homeless

In one of our latest initiatives, we are providing tarpaulin sheets to the people living on the streets without any means of earning, no or poor roof over their head, and scanty to feed their families.

Random Acts of Kindness

Along with and in addition to these initiatives, our field Teams and volunteers across more than 41 cities are constantly engaged in Random Acts of Kindness like:

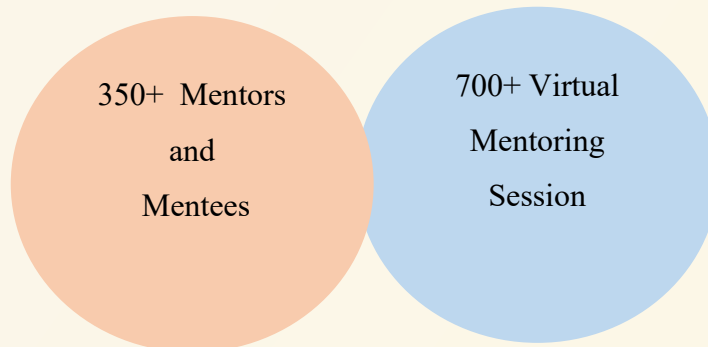

- 1) Serving food packets to the needful
- 2) Providing water for construction workers
- 3) DIY mask-making to provide livelihood to women in distress

Testimonials

In today's session with my mentor Mr. Vivek Ladha, Vice President, and Corporate Treasury at Goldman Sachs was a great talk about formal skills required in today's corporate environment. He gave me all the important hacks about on how to draft formal e-mails. He also tips on formal dressing and on corporate etiquettes. He also shared his personal contact number and email id for any further contact. All in all it was a great learning experience!" – Vivek, Yuva Unstoppable Scholar

It was nice having conversation with Neha Kumari, working at Goldman Sachs. We discussed on menstrual hygiene and how to manage during periods. We both sang song together; it was my best 60 minutes, where I enjoyed spending time with her. I am looking forward to meet her soon over the video call. – Ritu Prajapati, Yuva Unstoppable Scholar

"Yuva Unstoppable was the first one to reach us during the pandemic, requesting the details of vulnerable students and their family members' daily nutrition requirements. It was a great experience to be part of the kit distribution to the needy families, thankyou Yuva Unstoppable for their initiatives."- Girishji, Principal GSSS Bhanvad, Churu, Rajasthan

"During the lockdown, I have lost my job and it was difficult for us to gather a meal for my family and there was no immediate relief. However ,Yuva's volunteers were on the ground looking for vulnerable families and distributing them essential nutrition kits. We are grateful to Yuva Unstoppable for their social service during the lockdown and helping the vulnerable ones."– Ramji, Daily Wage Laborer ,NewDelhi

Thank you Yuva Unstoppable for distributing the Health and Hygiene kits in schools. -Lata, 5thStandard Student, Girls Primary School, Haryana

Perfect Relations' initiative to protect police force fighting COVID-19

3 MINUTES TO READ

APR 07, 2020

ADGOLLY BUREAU

@adgolly

News in the domain of Advertising, Marketing, Media and Business of Entertainment

Dilip Cheriai, the co-founder of Perfect Relations and Advisory Board Member of Yuva Unstoppable joins the fight against the global pandemic COVID-19 by launching the 'Unstoppable Police Project' to support the police force of India and their families with a thank you kit comprising of the basic health and hygiene kit as well as a special acknowledgement note. The objective behind Dilip Cheriai's brandchild is to reach out to maximum number of police, men and women, across the country and protect them and their distressed families from getting infected by Corona Virus as they lay bare their lives to protect the citizens of this nation.

This initiative kicked off in Ahmedabad and in the presence of Sri Ashish Bhatia, Commissioner of Police, Ahmedabad around 1000 kits were distributed to the Police posted near the Railway station. They further plan to support police force in other parts of Gujarat, Delhi, UP, Punjab, Haryana & Maharashtra. The Kits will be sent to central locations in the states and then distributed to the police further across. The aim is to reach out to and keep safe close to around 5,00,000 police personnel and an even larger number of their family members across the country as they fight the battle against COVID-19 from the frontlines. 100% of the donations received from this campaign will go straight towards benefitting the beneficiaries and all measures to enhance the safety and effectiveness of law enforcement shall be observed. Our PM in his speech mentioned that Police personnel should be taken care of and thanked people for helping and supporting them.

"The Unstoppable Police Project" was launched in order to prevent further spread in India, which may lead to an even bigger crisis for the populous country. As of now, about 14 lakh police force are patrolling the streets of India to help people stop indoors, stay safe. Considering that they would be coming in touch with their children and elderly parents and other family members at home, who are particularly susceptible to the Corona Virus, the number of at-risk people further increases! Hence, Perfect Relations and Yuva Unstoppable have tied up with the government of various states for distribution of 'Thank You Kits' for these 'True Heroes' and their heroic families back home. Each kit costs INR, 250/- and comprises of one reusable mask, 10 disposable masks, 100 ml sanitizer, and 100 ml hand wash liquid or 75g antibacterial soap along with a thank you note for the families of policemen and women.

PRESS RELEASE

Yuva Unstoppable Scales up Humanitarian Aid Amidst COVID-19

By The CSR Journal - May 5, 2020

SHARE Facebook Twitter in

Yuva Unstoppable, an India based non-profit organization founded by Amitabh Shah, recently distributed family essential kits to daily wagers, supporting about 15000 needful people across the country. In addition to this, the NGO also distributed hygiene kits for police personnel and their family members under its 'Unstoppable Police Project', benefitting close to a total of 60000 people countrywide.

Here's what Amitabh Shah, the Founder & Chief Inspiration Officer of Yuva Unstoppable, had to share about the organization's COVID-19 relief initiatives - "The pandemic has not only created a global health and safety risk but has also created another health concern which is the lack of basic nutrition to last an individual during a single day. During this time it is essential not only provide food and safety to those in need but equally important to reach out and support those who are the frontline workers in today's time. Through our collection of 8 safety kits, distribution, we

Yuva Unstoppable's Amitabh Shah Mobilises Leaders Like Nadir Godrej And VVS Laxman For 'Janta Mentorship'

NEW DELHI, March 30, 2020 /PRNewswire/ - Founder and Chief Inspiration Officer of Indian non-profit organisation Yuva Unstoppable Amitabh Shah, launches 'Janta Mentorship' campaign to keep empowering the nation's youth in creative ways during the current pandemic lockdown. Originally inspired by Amitabh Shah's wife Mrs. Kashmi Shah's idea, the campaign connects India's top corporate leaders, entrepreneurs, sportspersons, and counsellors among other experts from different walks of life with Yuva Unstoppable's educational scholarships recipients for one-on-one online mentorship sessions. The aim is to mentor the latter on diverse real life subjects like health and fitness, attitudes and mindsets, acquiring new skill sets, and basically staying safe, healthy, positive, and productive in these quarantined times. It was launched on the day of 'Janta Curfew' in India that is, 22nd March 2020 and since then the powerful movement has mobilised close to 50 mentors and organised scores of inspiring sessions to motivate over thousand students benefitting from the NGO's scholarship program.

Amitabh Shah's Yuva Unstoppable reaches out to rehabilitated youth and sex workers amid COVID-19 crisis

Share Via: WhatsApp Facebook Messenger Email LinkedIn

Yuva Unstoppable extends a helping hand to the sex workers and rehabilitated youth of New Delhi.

Stories that makes us Unstoppable

Story 1

Hundreds of construction workers near MRF tyres site, Dahej have migrated from northern states in India like UP, Bihar, Jharkhand to Gujarat in search of better source of income. Due to the COVID-19 induced lockdown, these daily wage labourers were one of the worst hit as their source of income was lost. With state borders sealed and discontinuation of all forms of transportation allowing inter-state movement, these labourers could not return to their hometown. This worsened their plight; they were forced to stay behind with little certainty about future conditions. Poor, hungry, and vulnerable, they were at great risk of falling susceptible to the deadly virus due to lack of availability of adequate prevention and personal protection equipment like food, sanitizers, etc.

This is when CAF and Yuva Unstoppable intervened to provide them with the family essential kits comprising of food plus preventive materials. It brought about great relief for these labourers and their families who were staying together.

Story 2

An HIV centre in Ahmedabad is home to HIV positive children, most of who are orphans or neglected. In some of the cases, their family members are also HIV positive and struggle to make ends meet. They are children of daily wage labourers whose life has come to a standstill due to the outbreak of COVID-19 and lockdown.

Yuva Unstoppable provided family essential kits to 50 children from this centre, of which 22 are orphans. Priya & Pranjal, 8 and 10 year-olds respectively, are two girls from this centre who are HIV positive. They lost their father a year back. They stay with their mother and grandparents in a one room house. Their father, the sole bread winner of the family, was an auto rickshaw driver. After he passed away, their widowed mother had to become a daily wage labourer for survival. She works from morning to night only to make a meagre income that can neither fulfil their basic needs nor support the education of her two daughters. They eat at their relative's place and Priya, despite being an 8-year old is still in Kindergarten because of absenteeism due to illnesses. What's worse, the family is indebted with the loan Priya & Pranjal's father had taken for the auto. And now, even the daily wage work has come to a halt.

Story 3

Nagora is a socio-economically backward slum area in old city area of Ahmedabad, one of the most at-risk areas in the city where people still live under thatched roofs or tin sheds. It is home to hundreds of migrants and daily wage labourers who have left their villages in search for better work and pay. The geographical distance between each slum is too less to maintain social distancing and the families are facing dire situations.

What makes it even worse is when many of the inhabitants in the slum area are widows, socially ostracised and economically disadvantaged since years. These elderly, widowed women from such under-served areas not only lack a stable source of income but also face discrimination on social grounds due to orthodox thinking of the fellow slum dwellers. This further obstructs access to opportunities and commodities for survival. Yuva Unstoppable distributed food kits to 15 such elderly widows from the slum area to help them in this fight against COVID-19. It not only gave them the hope to navigate these testing times, but also great happiness, emotional courage, and willingness to survive as they felt 'included' and 'cared for'.
