WE ARE PRODUCTIVE
WE ARE GOOD LOOKING
WE ARE DYNAMIC
WE ARE HARDWORKING
WE ARE CREATIVE AND
WE'LL MAKE A DIFFERENCE

Founder's **Message**

Dear Friends,
As I reflect on this past year's journey, I cannot help but be reminded of the strength and resilience that I have seen and experienced first-hand from our students, our communities and our well-wishers. I would like to reflect on this positive sentiment as we rise to the occasion and move forward from the unprecedented crisis of the pandemic to march forward into a future full of hope and creativity. The year has been about recovery, assessment through the testing times and rebuilding for the future. And Yuva Unstoppable has remained true to its mission, expanding to 4000 schools spread across 18 states of India, reaching over 6 million individuals.

As our students struggled with the break in education, Yuva Unstoppable diverted its focus on ensuring that children were provided access to tools essential for them to stay connected to their studies and take classrooms into their homes.

The 'Tab-Based Learning' programmeme at Yuva Unstoppable ensures learning never stops through shared digital access for children.

The 'Tab-Based Learning' programmeme at Yuva Unstoppable ensures learning never stops through shared digital access for children. Through this initiative, Yuva partnered with the Yale Centre of Emotional Intelligence, focussing on students' mental health as they overcome the challenges of the pandemic. In the following pages, you will find examples of our growth journey and how we have had to pivot strategies and reset specific priorities to deal with the dynamic environment.
As the situation returned to normalcy – our students and communities were raring to go, and we at Yuva are not one to be left behind. We embarked on a new action plan of adding the 'Green' component to our School Transformation programmeme. As a part of this, along with sanitation and smart classroom upgrades, we also work on making school campuses environment-friendly through rainwater harvesting & water recharge infrastructure, solar panels and tree plantation across the school premises. The impact of this will be seen shortly with improvement in the groundwater level & access to usable water in the school and access to power backup for running the primary school infrastructure. Realising the importance of sports and access to sports facilities in schools, our partners have also come in to support the building of sports grounds in schools. The open area proves to be an excellent facility for sports activities, assembly and other extracurricular activities essential for the overall development of children.
This programmeme is designed to allow a student to grow and develop through an economic and social opportunity giving them a chance to realise their true potential. Over the years, our scholarship programmeme has grown from 20 students in 1 state to over 3000 students across 15 states. The scheme has provided financial aid and supported students through mentorship opportunities and connections with corporates for internships.
As we march into a more hopeful year, I am humbled and grateful for the support and commitment Yuva receives from our Donors, Partners, Board of Trustees and Staff members. This family of Yuva will remain unstoppable until we make our vision a reality with commitment and self-belief.

With love,
Amitabh Shah

About Yuva Unstoppable

Yuva Unstoppable is a committed not-for-profit organization founded in 2005 and registered in India and the United States of America. Since our inception, we have been striving to make a difference in the lives of the young generation. We aim to transform the lives of underprivileged children and youth by maximizing impact in the education sector. Our 'Model of Action' is based on inspiration. We rely on our volunteers' strength and youth's power to create a systematic and organic chain reaction to bring positive societal change. We work with over 100 corporate partners and inspire them to care.

Introduction

Our model of action is based on inspiration. We inspire children to achieve greatness, pursue happiness, and become aware and conscious citizens. We rely on our volunteers' strength and youth's power to create a systematic and organic reaction to inflict positive change in society. Yuva Unstoppable has evolved with a clear theory of change – To transform the lives of less privileged children and youth by maximizing impact in the education sector. We are committed to driving this change by focusing on the fundamentals – upgrading basic infrastructure facilities in schools providing access to modern means of teaching-learning, and creating a more compassionate world around us.

Among the various pitfalls that all humankind – Hunger, Poverty, Gender Discrimination, Poor Health Facilities, Lack of Clean Water, Sanitation, and Inequality in terms of quality education are the glaring ones. As part of our mission, we have the vision to target these lacunas and smoothen these trenches, thereby ensuring a level ground for the needy. In line with this, we have already embedded X out of 17 UN SDGs in our mission.

We rely on our volunteers' strength and youth's power to create a systematic and organic chain reaction to bring positive societal change.

Our Vision

To educate and transform the lives of children and youth in India by bridging the digital divide by providing devices and digital classrooms and developing sustainable infrastructure for clean water, sanitation, hygiene. Inculcate a sense of self-belief, confidence, gratitude, compassion and passion amongst the recipients.

Our Mission

To transform 10,000 schools and positively impact 5 million children by 2027. To provide 10,000 scholarships to needy and deserving students in the next 5 years.

Our purpose

To positively change the lives of children and youth in need.

OUR **FOUNDERS**

AMITABH **SHAH**

After an MBA from Yale University, Amitabh declined a Wall Street offer to work on the real streets of India. He started Yuva Unstoppable at the mere age of 23 with the sole focus of enabling and empowering youth to become changemakers of tomorrow.
He is the youngest Indian to win the US Government's Ellis Island Award, previously won by President Bill Clinton, Muhammad Ali, Indra Nooyi, Malala Yuzafai, and other legends.

Amitabh believes 'Gratitude, Self-Belief and Compassion' are the 3 pillars of a meaningful life. Today, YUVA has empowered more than 6 million vulnerable beneficiaries directly and indirectly including 4200 schools with improved sanitation, water, access to technology, scholarships, nutrition, vaccination, etc. and he remains unstoppable.

ABHI **SHAH**

Abhi Shah, an acclaimed entrepreneur, and philanthropist, is the Founder & former CEO of Inc. 5000-listed Clutch Group, a leading Artificial Intelligence-powered Big Data Analytics firm. He serves on the Board of Directors of AML RightSource, the largest global provider of financial crime solutions, Class Valuation, a top appraisal management company, and Ulteig, an engineering leader in the power, renewables, transportation, and water sectors. Previously, Mr. Shah served as Vice Chairman of Black Rock-backed Morae Global Corp., on the Board of Advisors of Sequoia Capital-backed Samya.AI., and on the Cyber Security Board at the Rutgers Center for Innovation Education. Earlier, he worked with Accenture where he led digital transformation at Verizon and managed the rollout of Comcast's new VoIP phone solution.

Mr. Shah was named Entrepreneur of the Year by EY, Maverick of the Year and Executive of the Year by American Business Awards, Gold Winner at Best in Business International Awards, National Champion for the UK at European Business Awards, and Business Icon of India. He has been featured on CNBC, Bloomberg, and Fox Business, and in the Wall Street Journal, Barron's, Financial Times, and a Harvard Business School case study.

Mr. Shah earned an MBA from Harvard Business School and has completed the Eisenhower Leadership Development program led by former US President George H.W. Bush, the Artificial Intelligence program from MIT, the Making Corporate Boards More Effective program from Harvard Business School, and the Board Leadership Fellowship from NACD.

Core **Team**

PAVAN JAIN
Chief Operating Officer

Pavan is one of the Founding Members of Yuva Unstoppable, who started off as a volunteer & formally joined Yuva in 2010. In charge of the overall management and operations of the organization, Pavan is also involved in motivating volunteers, organizing awareness drives & interacting with our associated partners.
Pavan has an MBA in Leadership & Project Management from Auckland University, New Zealand. He declined an offer from Telstra Clear to pursue social change in India and contributed to founding and building YUVA Unstoppable. Pavan has also served as the Senior Program Manager For Times Foundation Rajasthan.

PARTH VASVADA
Chief Philanthropic Officer

Parth is one of the Founding Members of Yuva Unstoppable who believes that love and happiness can bring about a revolution, Parth Vasavada follows his heart and dreams of making this planet more peaceful. Parth oversees the fundraising and forward design strategy for the organization.
Parth is a gifted orator and an active participant in Tedx Talks, UN Conclaves, US Consulate Young Change-makers Conference, and many such symposiums. Not exactly wanderlust, but his calling for discovering the unsung heroes and collecting inspiring stories took him across 8 nations on a motorcycle peace tour named De Paix Yatra.
An art, literature, and culture enthusiast, Parth finds and instills an essence of peace, love, and unity in whatever he does. At Yuva, he designs innovative campaigns focused on getting maximum results with the aim to spread hope and happiness.

UTSAV PATEL
Chief Administration Officer

A Master in Computer Application and Diploma in Accounting and Business Management who is a technology enthusiast, Utsav manages the financial health of the organization and develops and executes the organization's business strategies. He brings in his technical and financial expertise in achieving the goals of Yuva. He has been associated with Yuva since 2010 and believes children can bring change to society.

HEMANG JOSHI
Head – School Transformation Program

A Master's in Commerce and a Master's in Education who believes don't lose love & passion for the work you want to do, Hemang joined Yuva Unstoppable in 2005 as a volunteer where he was teaching students and brought awareness of education through different programs and events. The journey after volunteering changed his mindset and motivated him to associate himself join Yuva Unstoppable.
Hemang oversees the infrastructure upgradation project ensuring the latest technology is used to transform schools to provide betterment and quality of education for children.

SWATI SHAH
Head Human Resources & Scholarships

Swati has spent the last decade being an active part of the Yuva Unstoppable team growing the scholarships program. An MBA in Human Resources, Swati has had past work experience with leading corporates before she decided to channel her passion towards working with students towards their personal and professional development.
She is actively involved in volunteering engagement, personnel management, employee engagement, and motivation, and has taken on overall responsibility for Project 'Badlav'. by taking the responsibility of the project.
Swati believes every child must have wings to fly and through the scholarship schemes of Udaan and Badlav the talent and skill of young minds is honed, nurtured, and developed further.

WASH

In a government school located in an underprivileged community, the lack of proper sanitation facilities and access to hygienic and safe drinking water posed significant challenges to the student's well-being and learning experience. Recognizing the importance of WASH infrastructure in creating a conducive and healthy environment, Yuva Unstoppable embarked on a project to transform the school's facilities.

The transformation began with the construction and improvement of sanitation facilities, including the construction of separate toilets for boys and girls. These toilets were designed to be child-friendly, ensuring privacy, safety, and cleanliness. Proper hygiene practices, such as handwashing, were promoted through the provision of soap and handwashing stations.

Additionally, Yuva Unstoppable addressed the issue of safe drinking water by installing water purification systems. The students now had access to clean and safe drinking water, eliminating the risk of waterborne diseases and promoting their overall health.

Through the WASH facilities project, Yuva Unstoppable successfully created a child-friendly learning environment by ensuring access to clean water, and proper sanitation facilities, and promoting good hygiene practices.

The transformation began with the construction and improvement of sanitation facilities, including the construction of separate toilets for boys and girls.

The impact of the WASH facilities on the students was significant. They no longer had to worry about unsanitary conditions or the discomfort of inadequate facilities. The improved sanitation facilities not only promote good hygiene practices but also instilled a sense of dignity and self-respect among the students. They felt more comfortable and motivated to attend school regularly, knowing that their basic needs were met.

The WASH project not only addressed the immediate needs of sanitation and hygiene but also promoted a culture of cleanliness and healthy habits among the students. They became ambassadors of good hygiene practices, sharing their knowledge with their families and communities. The impact spread beyond the school, positively influencing the overall well-being and health of the community.

Through the WASH facilities project, Yuva Unstoppable successfully created a child-friendly learning environment by ensuring access to clean water, and proper sanitation facilities, and promoting good hygiene practices. The project improved the overall well-being of the students, enhanced their educational experience, and empowered them to become agents of change in their communities.

The WASH project not only addressed the immediate needs of sanitation and hygiene but also promoted a culture of cleanliness and healthy habits among the students.

EDUCATION **PAITINGS**

WASH **TESTIMONIALS**

Dr. Rajni Sharma

Gurugram District Counselor
Haryana Education Department

“The introduction of improved wash facilities at our school, made possible by the initiative of Yuva Unstoppable, has had a transformative impact on our school environment and the well-being of our students. Clean and accessible wash facilities are crucial for maintaining the health and hygiene of our students. With proper water, sanitation, and hygiene infrastructure, our students can focus better on their studies, as their basic needs are met. This has led to improved attendance and engagement in classroom activities. We extend our heartfelt appreciation to Yuva Unstoppable for making this initiative possible. The wash facilities have not only addressed a critical need but have also contributed to the overall well-being and development of our students.”

Manoj Kumar

Govt. High school Nakhrola

“The addition of improved wash facilities at our school, thanks to the efforts of Yuva Unstoppable, has had a remarkable impact on both the students and the teaching staff. Having access to clean and functional washrooms has significantly enhanced the overall hygiene and sanitation standards of the school. As teachers, we are relieved knowing that our students have proper facilities to maintain their health and well-being. We are truly grateful to Yuva Unstoppable for their dedication to enhancing our school's infrastructure and facilities. The wash facilities have undoubtedly made a positive difference in the lives of our students and have improved the quality of education we provide.”

Anjali Dikshit

Rajkiya Balika Inter College

“Before, we used to have limited and sometimes unsanitary wash facilities. But now, we have clean and proper toilets and handwashing stations. This makes us feel more comfortable and confident in using the washrooms at school. We've also learned a lot about the importance of hygiene and cleanliness. Our teachers teach us how to properly wash our hands and take care of ourselves. It's a great lesson that we can apply not only at school but also at home. We want to thank Yuva Unstoppable for caring about our well-being and making our school a better place for all of us.”

DIGITAL **TRANSFORMATION**

The program not only impacted students but also transformed the role of teachers. Teachers became facilitators and mentors, guiding students in the effective use of technology and providing individualized support. They were trained in digital teaching methodologies and equipped with the skills to leverage technology for enhanced instruction. The program empowered teachers to adapt to the evolving educational landscape and become catalysts for innovation and creativity in the classroom.Through its Digital Transformation Program, Yuva Unstoppable successfully bridged the digital divide in schools, providing students with access to technology and innovative learning experiences.

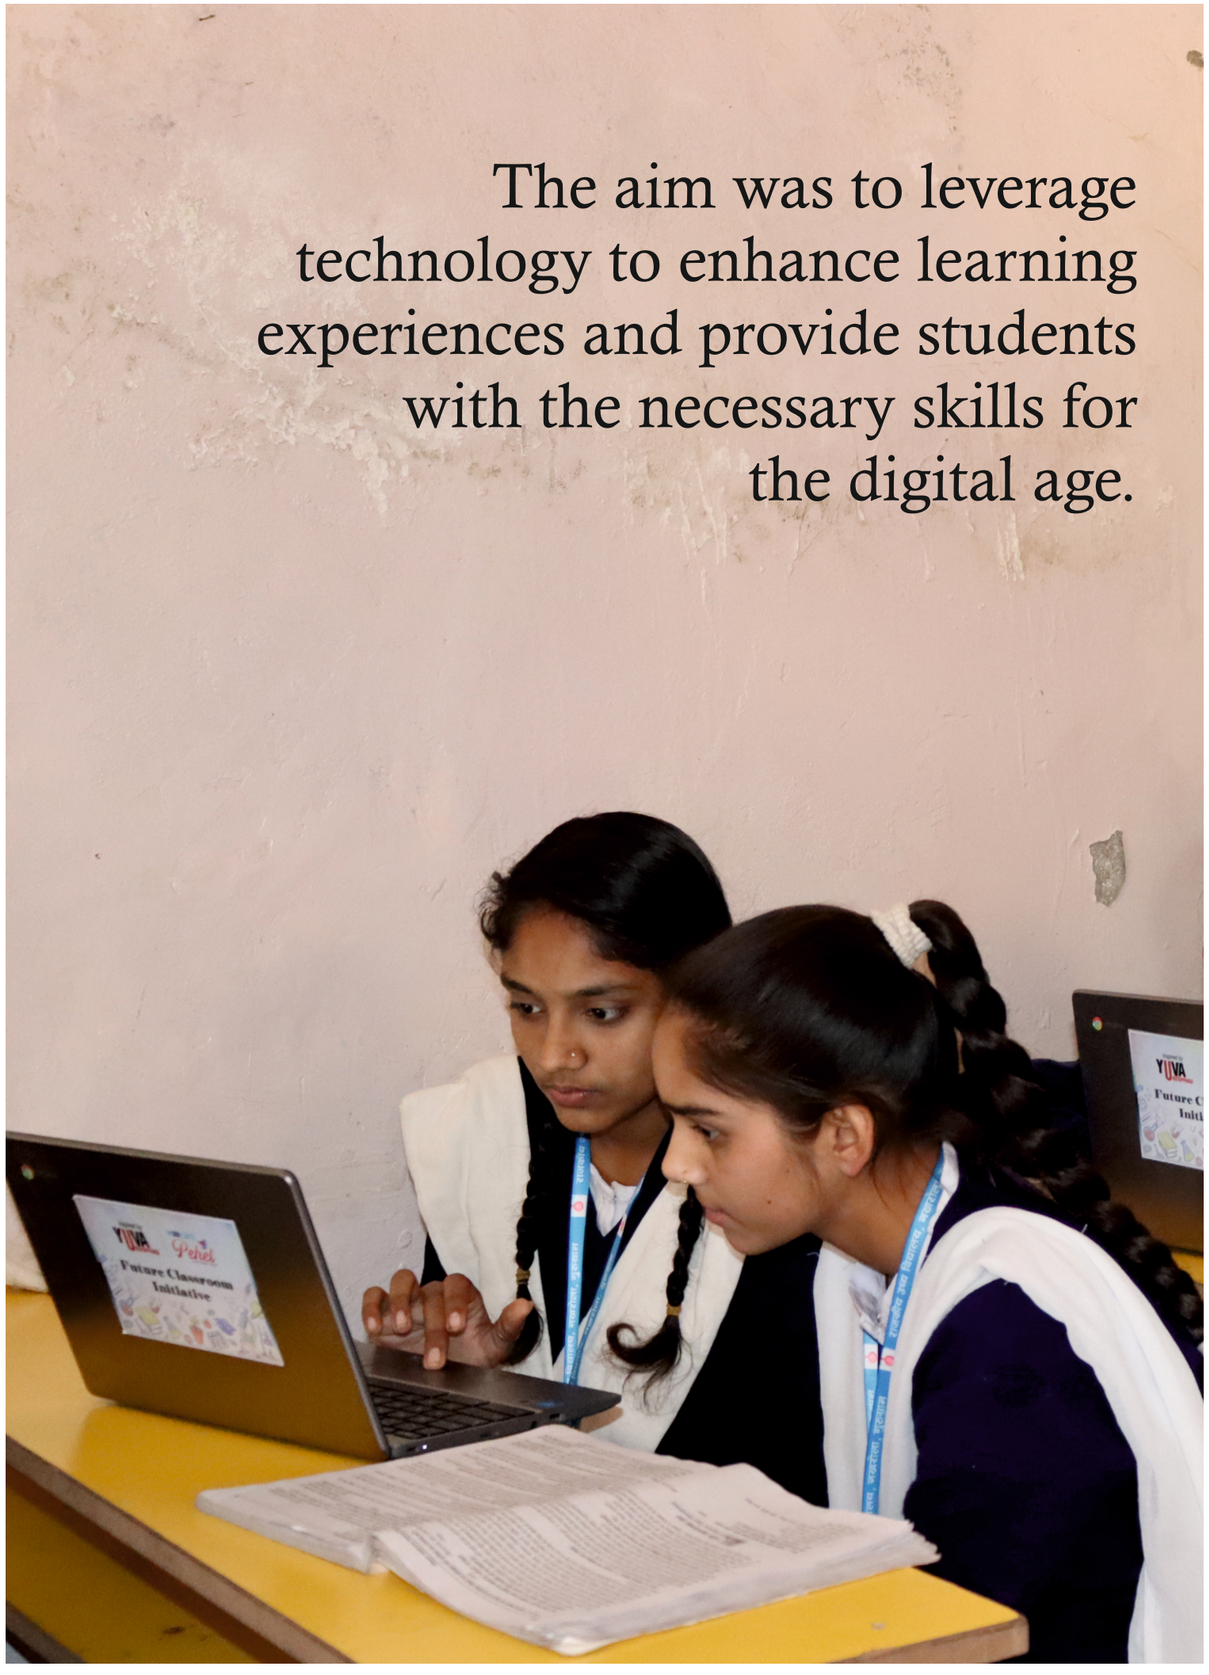

Yuva Unstoppable introduced a Digital Transformation Program as part of its School Transformation initiatives.Inspired by the Digital India initiative, Yuva Unstoppable implemented Smart Classrooms and Google Future Classrooms (GFC) in schools. The aim was to leverage technology to enhance learning experiences and provide students with the necessary skills for the digital age. The program focused on setting up fully equipped digital classrooms and implementing the K-Yan or Knowledge Vehicle technology.

The Smart Classroom Project revolutionized the learning environment by introducing interactive digital resources, such as digital textbooks, interactive presentations, and online quizzes. Traditional lesson plans and materials were converted into digital formats, making learning more engaging, interactive, and accessible to students. The use of technology allowed teachers to deliver lessons in a more dynamic and interactive manner, catering to different learning styles and preferences.

The impact of the Digital Transformation Program was profound. Student engagement levels increased significantly as they became active participants in the learning process. Access to digital resources opened up a world of educational opportunities for students. They had access to a wealth of online materials, educational videos, and interactive platforms that supplemented their classroom learning. The program encouraged self-directed learning and research, empowering students to explore topics beyond the prescribed curriculum and broaden their knowledge horizons.

Student engagement levels increased significantly as they became active participants in the learning process.

The aim was to leverage technology to enhance learning experiences and provide students with the necessary skills for the digital age.

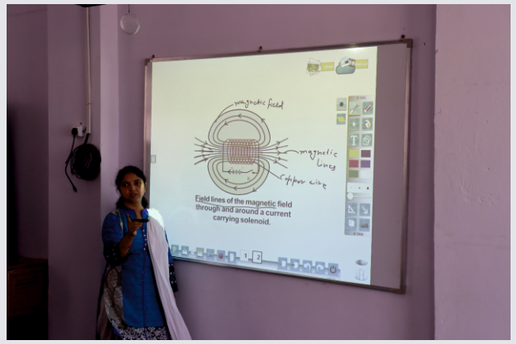

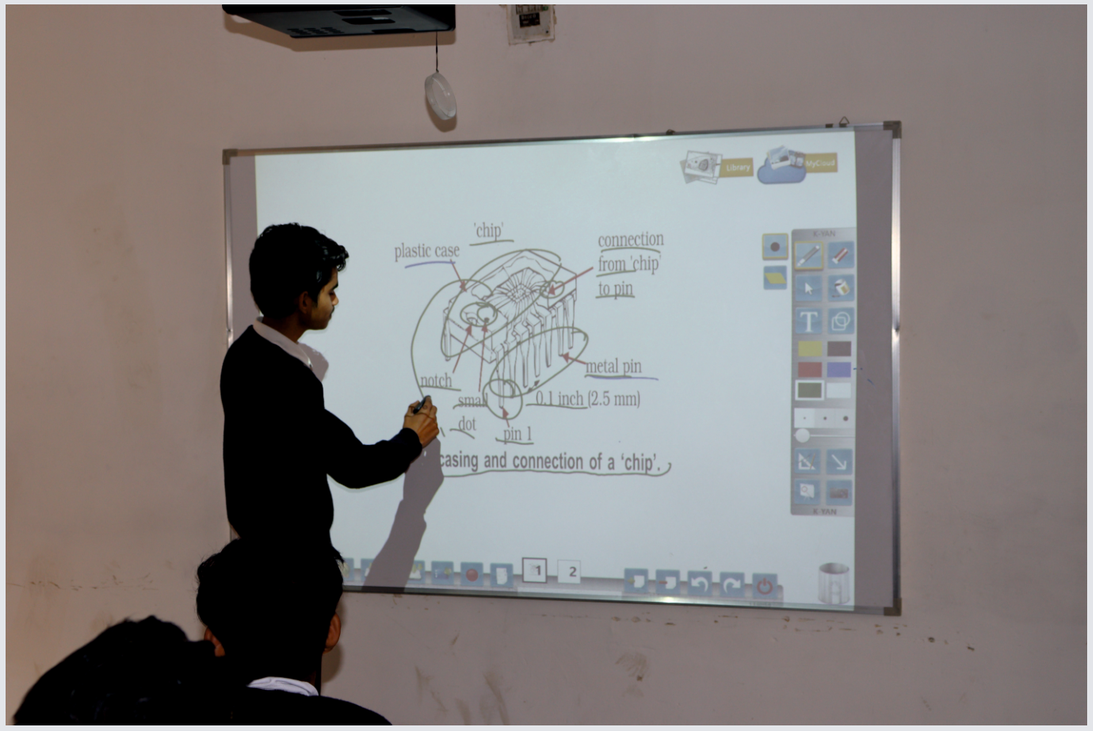

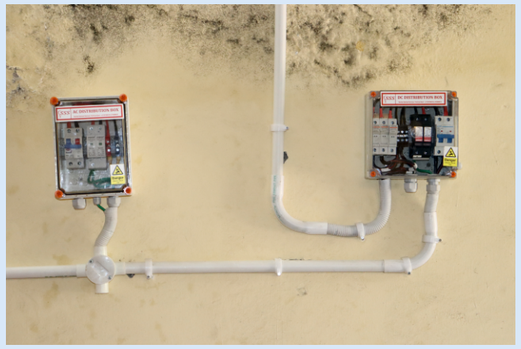

The use of technology allowed teachers to deliver lessons in a more dynamic and interactive manner, catering to different learning styles and preferences.

SOLAR PANEL **SYSTEM**

In a government school in a rural area of India, access to electricity was sporadic and unreliable. The lack of a consistent power supply hindered the school's ability to provide a conducive learning environment for its students. Recognizing this challenge, Yuva Unstoppable collaborated with the school to implement a solar panel system.

The solar panel installation was a significant milestone for the school. It not only provided a reliable and cost-effective source of electricity but also served as a practical demonstration of renewable energy technology. The partnership between Yuva Unstoppable and the school went beyond the installation itself, as it aimed to promote education about renewable energy and sustainability.

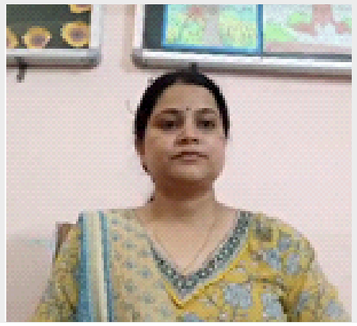

The solar panel system not only improved the learning environment but also instilled a sense of environmental consciousness among the students. They realized the importance of preserving natural resources and actively participated in tree-planting drives and waste management initiatives. The students understood that small actions could contribute to a larger, more sustainable future.

Yuva Unstoppable's commitment to supporting schools in adopting renewable energy technologies has led to numerous success stories like this, where solar installations have become catalysts for change, empowering students and communities to embrace sustainable practices and build a brighter future.

The solar panel installation was a significant milestone for the school. It not only provided a reliable and cost-effective source of electricity but also served as a practical demonstration of renewable energy technology.

SOLAR PANEL **TESTIMONIALS**

Deepa Sharma

Ghs Nakhrola principal

“Due to the power cut, students were not able to study for long hours but solar Installation has helped them to study without any disturbance. It has reduced our electricity bill. The students are also more engaged in learning about renewable energy and sustainability, and it has become a great topic for classroom discussions. Our solar installation has become a symbol of our commitment to environmental responsibility, and we are proud to set an example for our students and the community. We thank to yuva unstoppable for taking such a great initiative toward the environment and installing solar panels at our school.”

Pimi Chadda

GHS Kanhai

“Previously it was difficult for students to study because of the electricity consumption by smart classrooms. After solar installation, it has helped to teach students without any interruption. The solar panel has also reduced electricity costs and has also been beneficial for the school's budget, ensuring that resources are spent on providing a better education for our children. Moreover, it's an excellent example for the students to witness how small changes can lead to a significant positive impact on the environment. We are grateful to Yuva Unstoppable for installing the solar panel.”

MULTIPURPOSE **SPORTSGROUND**

In a government school access to safe and high-quality sports facilities was nonexistent. The lack of proper infrastructure hindered the students' ability to engage in physical activities and develop their skills. Recognizing the importance of sports in holistic development, Yuva Unstoppable embarked on a project to build a multipurpose sports ground in the school. The ground provided a safe and inclusive space for students to engage in physical activities, practice their favorite sports, and explore new ones. The school now had a dedicated area where students could come together, compete, and learn important life skills through sports.

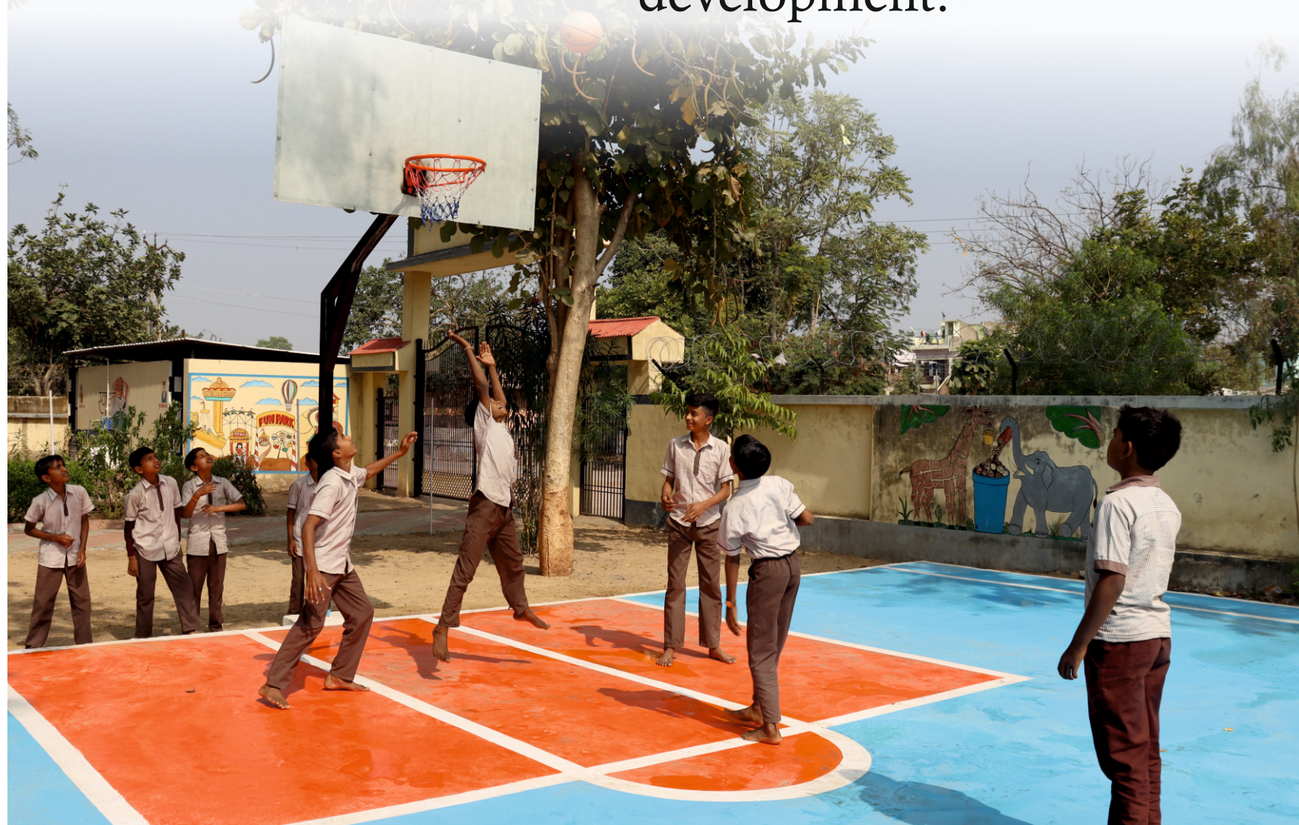

To complement the infrastructure, Yuva Unstoppable provided sports equipment and organized training sessions conducted by professional coaches. The students received guidance and mentorship, developing their physical skills and gaining a deeper understanding of sports techniques and strategies. They learned the importance of discipline, perseverance, and teamwork—values that extend beyond the sports field.

The impact on the students was remarkable. They experienced improved self-confidence and self-esteem as they honed their skills and witnessed their progress. Through sports, they discovered their strengths, developed a sense of purpose, and gained a positive outlook on life. They became more resilient, learning to handle both victories and defeats with grace.

The sports ground also served as a platform for fostering social connections and enhancing communication skills. Students from different backgrounds came together, formed teams, and built strong bonds through their shared passion for sports. They learned to cooperate, collaborate, and respect one another, transcending barriers of caste, creed, and gender. The sports ground became a hub of inclusivity and camaraderie.

Through the multipurpose sports ground project, Yuva Unstoppable successfully created an environment where students could thrive physically, mentally, and emotionally. They learned life skills, developed leadership qualities, and embraced the values of sportsmanship. The project not only provided access to sports facilities but also fostered a sense of community and empowerment among the students.

Yuva Unstoppable continues to make a positive impact on the lives of children and young adults in need, using sports as a catalyst for transformation, promoting physical and mental well-being, and creating opportunities for personal growth and development.

Play is not just about having fun but about taking risks, experimenting and testing bondaries.

MULTIPURPOSE SPORTSGROUND **TESTIMONIALS**

Chandrakant Parmar

Principal,
Harniyav school

“Whenever we used to go to other schools, we always wanted to have a sports ground at our school. We are grateful to yuva unstoppable for equipping the sports ground. Beyond the physical benefits, the sports ground has also contributed to our academic performance and overall well-being. Regular physical activity has improved our concentration, focus, and mental agility, helping us perform better in our studies.”

Megha Parmar

Harniyav school

“Having a proper sports ground has boosted our health and well-being. Regular exercise has made us more active and energetic, and it's also a great stress reliever during exams and busy school days. We're so thankful to Yuva Unstoppable for making this sports ground a reality for us. It's not just a piece of land with sports facilities; it's a place where we build character, learn life lessons, and create unforgettable memories. The sports ground has made our school experience richer and more fulfilling.”

STEM **LAB**

According to New Education Policy released by Central Government, STEM Education is made compulsory in primary & secondary schools.
Yuva Unstoppable One of the initiatives involves developing STEM (Science, Technology, Engineering, and Mathematics) labs in government schools across the country. These labs provide students with hands-on learning experiences, practical knowledge, and exposure to modern technologies.

An impact story showcasing the positive influence of Yuva Unstoppable's STEM labs on students in a government school in India:
In a small village in rural India, there is a government school where access to quality education and resources was limited. Many students had never even seen a computer, and their exposure to science and technology was severely limited. However, everything changed when Yuva Unstoppable stepped in and established a STEM lab in their school.The STEM lab was equipped with computers, science experiment kits, 3D printers, and other modern tools. Trained instructors were also provided to guide and mentor the students. Initially, the students were hesitant and unsure about the new lab. They had never been exposed to such advanced technology before.

But with time, they began to explore and experiment. They learned to code, designed 3D models, conducted scientific experiments, and collaborated on projects. Slowly, their curiosity and enthusiasm started to soar. The students realized that they could dream big and pursue careers in fields like engineering, computer science, and biotechnology.The STEM lab became a hub of creativity, innovation, and collaboration. It bridged the gap between theoretical knowledge and practical application. Students gained problem-solving skills, critical thinking abilities, and a passion for learning. They became confident, curious, and ready to face the challenges of the modern world.The impact of the STEM lab extended beyond the school walls. Students shared their newfound knowledge and skills with their families and community members. They conducted workshops and training sessions, spreading awareness about technology and its potential for societal development.

This initiative of Yuva Unstoppable at the government school witnessed a remarkable transformation.
The students who once had limited opportunities now had access to modern technology and the skills to excel in the digital age. Their dreams and aspirations were no longer constrained by their circumstances.

The success story of this government school is just one among many impacted by Yuva Unstoppable's efforts. Through their STEM labs, they continue to empower countless students, unlocking their potential and paving the way for a brighter future.

Yuva Unstoppable One of the initiatives involves developing STEM (Science, Technology, Engineering, and Mathematics) labs in government schools across the country.

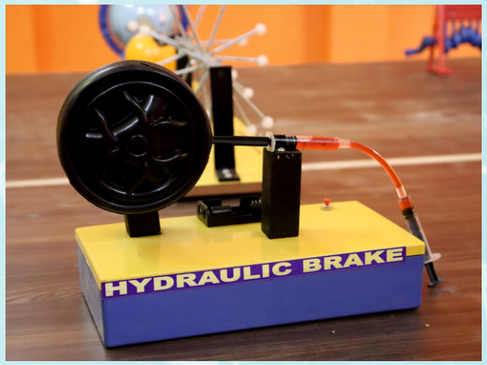

STEM LAB **TESTIMONIALS**

Saroj Yadav

Principal ,Rajkiya Higher Secondary School, Riwali

“STEM Labs has been a game-changer in our student's learning experience. The introduction of STEM Labs has revolutionized the way we teach and engage with our students.

The hands-on and interactive approach of STEM Labs has sparked curiosity and excitement in our students about science, technology, engineering, and mathematics. The labs provide a platform to explore, experiment, and apply their knowledge to real-life situations, making learning more practical and meaningful. we are truly grateful to Yuva Unstoppable for bringing this incredible initiative to our school. It has undoubtedly enriched our students' learning journey and empowered them to embrace STEM fields confidently and passionately.

I am excited to witness the continued growth and success of our students, thanks to the impact of STEM Labs.”

Sanjay Kumar

Teacher, Rajkiya Higher Secondary School, Riwali

“The STEM Labs have also fostered critical thinking, problem-solving skills, and teamwork among our students. Through various projects and activities, they collaborate, brainstorm, and develop innovative solutions, which are invaluable skills for their future success. The introduction of STEM Labs has significantly increased student participation and attendance. The students look forward to their STEM Lab sessions, and their enthusiasm for learning has skyrocketed.”

Meha Agrawal

Sardar Govt. Sr. School

“The hands-on approach in the STEM Labs has made learning much more exciting. I no longer just read about concepts in textbooks; I actually get to see and touch real-world applications. I want to express my gratitude to Yuva Unstoppable for bringing STEM Labs to our school. It has truly changed how I perceive education and given me the confidence to dream big and explore the world of science and technology.”

RAIN WATER **HARVESTING**

By implementing rainwater harvesting, Yuva Unstoppable fosters a culture of sustainability and environmental consciousness among students.

Yuva Unstoppable's water harvesting project extends its impact beyond communities to transform schools by providing clean and sustainable water solutions. The project began by assessing the school's infrastructure and identifying suitable locations for rainwater harvesting systems. Yuva Unstoppable engaged with local experts to design and construct the infrastructure, ensuring its simplicity, cost-effectiveness, and ease of maintenance.

The impact of rainwater harvesting in the school was far-reaching. With a reliable water source, the school could ensure regular attendance and uninterrupted operations. Students no longer had to worry about water scarcity during school hours, enabling them to focus on their studies and academic growth.

By implementing rainwater harvesting in schools, Yuva Unstoppable not only provides clean and reliable water but also fosters a culture of sustainability and environmental consciousness among students. The project had a transformative effect on the overall learning environment, contributing to improved academic performance, student engagement, and overall well-being.

Through water harvesting initiatives in schools, Yuva Unstoppable continues to empower educational institutions, ensuring access to clean water, promoting sustainable practices, and nurturing future leaders who understand the value of water conservation.

MULTIPURPOSE SPORTSGROUND **TESTIMONIALS**

MURT

The MURT (Management of Urban Liquid Waste and Resilience Through Technology) project implemented by Yuva Unstoppable has a significant impact on government schools by focusing on improving hygiene infrastructure, specifically in the areas of water, sanitation, and sewage management. The primary beneficiaries of this project are the students, teachers, and support personnel in these schools.

The project achieves the following key objectives:
a. Installation of on-site sewage processing system: By installing an on-site sewage processing system, the project ensures that the sewage produced within the school premises is properly managed. This helps in maintaining a clean and hygienic environment, promoting the health and well-being of the school community.

b. Safe treatment of sewage and water recovery for reuse: The project emphasizes the safe treatment of sewage to prevent contamination and supports water recovery for reuse. This sustainable approach not only ensures improved sanitation but also addresses water scarcity issues by utilizing treated water for purposes such as toilet flushing.

Through these initiatives, the MURT project brings about significant improvements in the hygiene infrastructure of government schools.

It enhances the overall sanitation standards, contributes to the well-being and health of students, teachers, and support personnel, and creates a more conducive learning environment. Additionally, the project promotes sustainable water management practices, conserves water resources, and reduces the environmental impact of sewage disposal.

EDUCATIONAL **SCHOLARSHIP PROGRAMME**

Literacy is not a luxury,
it is a **Right** and
a **Responsibilty**

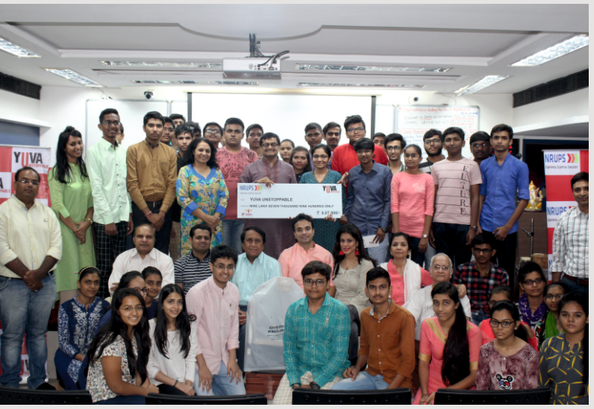

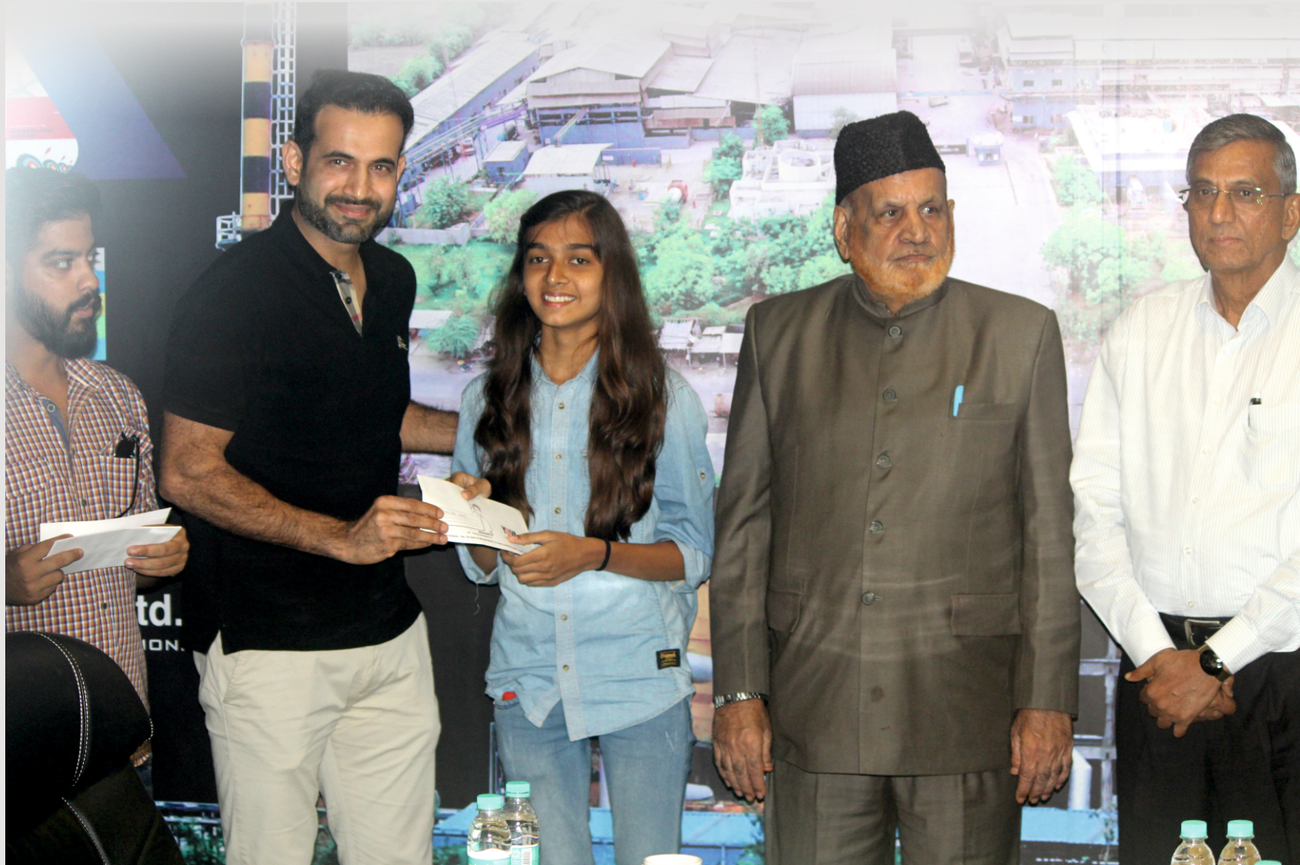

Yuva Unstoppable's UDAAN scholarship program is indeed a holistic initiative that aims to support the higher secondary education of deserving students from economically disadvantaged families. The program follows a comprehensive selection process to identify the most deserving candidates who demonstrate both academic excellence and financial need. selected students receive scholarships that cover various expenses related to their education, including school fees, tuition fees, books, stationery, and other necessary costs. This financial support relieves the financial burden on the students and their families, allowing them to focus on their studies.

Selected students receive scholarships that cover various expenses related to their education, including school fees, tuition fees, books, stationery, and other necessary costs.

In addition to financial assistance, the UDAAN program also focuses on monitoring and evaluating the progress of scholarship recipients. This ensures that the students are making the most of the opportunities provided to them and allows for any necessary support or interventions. Moreover, the program emphasizes capacity building among the students. It offers an array of courses and awareness interventions, exposing them to mentorship sessions and guidance counselors. Through these interactions, students get the chance to connect with prominent personalities from various fields who can provide guidance, motivation, and counseling. This exposure plays a crucial role in the overall growth and development of the students.

The ultimate vision of the UDAAN scholarship program is to create a platform that empowers youth to drive social change effortlessly and effectively. By providing financial support, mentorship, and exposure to opportunities, Yuva Unstoppable aims to enable young individuals to become agents of positive transformation in society.

Testimonial

Tella Selva Sowmya Rani

“I have pursued a Btech in Chemical Engineering from IIT Gandhinagar currently working as a graduate engineer at Jubilant Ingrevia Limited. I am grateful to yuva unstoppable for helping me by giving scholarship during my btech course. It was a great support to pursue my education. It has reduced my financial burden and made to focus on my studies to achieve my dreams.”

TABLET **PROJECT**

The program's main objective was to provide tablets to students who lacked access to digital resources, enabling them to continue their studies through remote learning. Yuva Unstoppable recognized the importance of a blended learning model and the need for tab-based support to bridge the educational gap.

Through this initiative, more than 10,000 municipal school-going children, as well as talented scholarship recipients, received remote learning devices such as Lenovo Tablets. Additionally, efforts were made to provide internet connectivity to ensure seamless access to online educational resources.

By providing these essential tools, Yuva Unstoppable facilitated uninterrupted learning for students who would otherwise have faced significant challenges in continuing their education during the pandemic. The program enabled students to engage in remote learning, access educational content, and stay connected with their teachers and peers.

The impact of the remote learning program goes beyond immediate access to education. It has empowered students, giving them a chance to develop essential digital skills and adapt to the changing educational landscape. By embracing technology, Yuva Unstoppable has opened doors for these students to explore new avenues for learning and personal growth.

Through their efforts, Yuva Unstoppable has not only mitigated the disruption caused by the pandemic but also laid the foundation for a more inclusive and resilient education system. The remote learning program has served as a catalyst in ensuring that children from impoverished backgrounds receive quality education, regardless of the challenges posed by the pandemic.

TABLET PROJECT **TESTIMONIALS**

Nancy Thakur

18 years old

“During the pandemic, Nancy Thakur experienced severe illness due to tuberculosis. Unfortunately, the medication she took resulted in numerous side effects, exacerbating her condition. As a result, she was unable to attend her 11th-grade classes, leading to a loss of confidence and a sense of helplessness. Furthermore, Nancy's parents were unable to provide her with a digital device to aid in her education. Fortunately, Nancy was a part of the Udaan Project, through which her situation came to our attention. Recognizing her need, we provided her with a tablet. This device proved to be a life-changer for Nancy. Gradually, she regained the ability to attend classes, and by the time she reached the 12th grade, she had become one of the top 50 students in Gujarat. The tablet not only empowered Nancy academically but also had a positive impact on her mother's life. Nancy's mother, inspired by her daughter's progress, learned how to start her own business as a beautician. Nancy and her mother express their heartfelt gratitude to Bank of America and Yuva Unstoppable for providing them with a new life and renewed hope”

Akeshesh

18 years old

“Akeshesh, who recently completed his 12th grade, faced hardships during the COVID-19 pandemic when his father lost his job and struggled to provide basic necessities. Recognizing Akeshesh's participation in the Udaan project, we offered him a tablet.

With the tablet in hand, Akeshesh not only began his online studies but also regained his confidence. Leveraging internet connectivity and various educational applications on the tablet, he dedicated himself to preparing for the NEET examination. Remarkably, he achieved an impressive score of 590 marks, securing a seat for his MBBS studies, which he will commence soon.

Akeshesh expresses profound gratitude to Bank of America for completely transforming his life and to Yuva Unstoppable for being a strong support system in his journey.”

Dharmanshu Prajapati

Ingoli School Principal

“Yuva Unstoppable donated 50 tablets to Ingoli Primary School, which are being used by students in grades 1 to 8 on a fixed schedule. The tablets are equipped with educational applications like G-shala and Shala-mitra that follow the Gujarat State Board Curriculum, along with Read Along, which has a vast collection of audio and video-based learning materials for all subjects. The tablets have led to an increase in regular school attendance and have stimulated greater interest and enthusiasm among students for their studies.. The tablets have also enabled students to study and learn independently, even outside of school hours. Lastly, the tablets have been instrumental in preparing students for external exams like PSE and NMMS (i.e., scholarship exams).”

ANGANWADI **PROGRAMME**

The YUVA Unstoppable Anganwadi Program focuses on improving the health, nutrition, and overall development of children and mothers in the community. The program recognizes Anganwadi Centers (AWCs) as vital platforms for service delivery at the grassroots level.

Through the program, several positive impacts have been observed. Firstly, there is an improvement in child health. AWCs provide essential healthcare services, including immunizations, growth monitoring, and early detection of health issues, leading to better overall child well-being. The program also contributes to improved maternal health. It promotes better birth spacing, reducing the risks associated with closely spaced pregnancies. Additionally, AWCs provide support and awareness on nutrition during pregnancy, which positively impacts maternal health outcomes. They also address maternal anemia through interventions and facilitate access to better nutritional support.

They provide access to early learning programs, digital learning tools, and toys, fostering cognitive development and school readiness. Furthermore, the program focuses on improving AWC infrastructure, ensuring safe and conducive spaces for all stakeholders. It emphasizes access to clean drinking water, essential ration kits procured from local vendors, and proper training for Anganwadi Workers. These initiatives contribute to the overall effectiveness and efficiency of service delivery.

The AWCs play a crucial role in early childhood education, enhancing cognitive abilities among children.

AWCs provide access to early learning programs, digital learning tools, and toys, fostering cognitive development and school readiness.

ANGANWADI PROGRAMME **TESTIMONIALS**

Somvati Sharma

Parent

“The name of my daughter is Lachi Sharma. She is 3 years old and first disliked going to the Anganwadi, but now she enjoys going every day. She has become more active. She has fun while eating well here. Our children are cared for by their teachers, and they benefit daily from the toys and other facilities. I appreciate you adding color to my child's early years. On behalf of all the parents, I express my gratitude to YUVA Unstoppable.”

Namrata

Anganwadi Helper

“My name is Namrata. I work here as a helper at the Anganwadi. Yuva has given us several facilities including sanitation, furniture, toys, and a playground. They enjoy coming here to spend their time. They learn, play, and eat. With the improved Sanitation facilities, all the staff feels comfortable here and children also learn to use the toilets in a proper way. We do their training and that will help them in the future.
We appreciate YUVA Unstoppable for providing us with all the facilities.”

COLLEGE **TRANSFORMATION**

The YUVA Unstoppable College Transformation Program aims to enhance the academic ecosystem and educational experience in Government First Grade colleges across various districts. One crucial aspect of the transformation is the provision of proper water and sanitation facilities. The program aims to construct toilets and ensure access to clean drinking water, which are essential for maintaining a healthy and hygienic learning environment.

Another focus area is the enhancement of laboratory facilities. The program aims to equip the colleges with modern laboratory equipment, enabling students to conduct practical experiments and gain hands-on experience in their respective fields. Infrastructure development is also prioritized in the program. This includes the repair and maintenance of classrooms and buildings, as well as the provision of suitable furniture for students and faculty members. Creating a conducive learning environment is essential for academic excellence. To improve overall safety and security, the program emphasizes the installation of signages and the construction of compound walls. These measures help create a secure campus environment for students, staff, and faculty members.

Through these transformative initiatives, the YUVA Unstoppable College Transformation Program seeks to enhance the quality of education and the overall educational experience in Government First Grade colleges. By addressing key infrastructure needs, such as water and sanitation, laboratory facilities, and infrastructure repairs, the program aims to create an environment conducive to learning and academic growth.

the program aims to create an environment conducive to learning and academic growth.

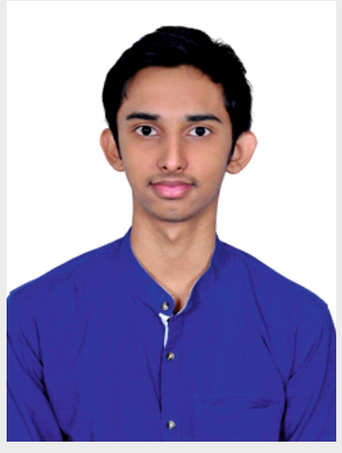

Testimonial

“The improvements in our college's infrastructure, including the addition of clean and accessible water and sanitation facilities, updated laboratories, and modernized classrooms, have significantly enhanced our learning environment. We now have the resources and facilities needed to excel in our studies and pursue our academic goals. We are immensely grateful to Yuva Unstoppable for their dedication to improving our college and the lives of its students. The program has empowered us to dream bigger and aim higher in our educational journey.”

FELLOWSHIP

HPV VACCINE

FLOOD RELIEF

FELLOWSHIP

Yuva Unstoppable initiated a Fellowship Program aimed at providing supplementary education, life skills, moral values, and health and hygiene awareness to underprivileged students in government schools.

The Fellowship Program recruited dedicated and passionate individuals as Yuva Fellows, who committed to a full-time two-year engagement with Yuva Unstoppable. These Fellows served as mentors, educators, and facilitators, working closely with the students in government schools to implement various educational activities and interventions.

The Fellows designed and delivered supplementary educational programs that complemented the regular curriculum. They focused on strengthening core subjects like mathematics, science, and English while adopting innovative teaching methodologies to make learning engaging and interactive. Through personalized attention and guidance, the Fellows helped students grasp difficult concepts, develop critical thinking skills, and improve their academic performance.

In addition to academic support, the Fellowship Program emphasized the importance of extracurricular activities and life skills. The program also placed significant emphasis on imparting moral values and personal hygiene awareness. The Fellows conducted sessions and workshops that instilled values such as morality, hard work, discipline, and empathy. They emphasized the importance of being helpful to others and encouraged students to contribute positively to their communities.

Health and hygiene were integral aspects of the Fellowship Program. The Fellows educated students about personal hygiene practices, sanitation, and cleanliness. They organized awareness campaigns, teaching students about proper handwashing techniques, dental care, and nutrition. The program aimed to improve the overall health and well-being of the students, enabling them to lead healthier lives.

The impact of the Fellowship Program on the students was transformative. The personalized attention, mentorship, and educational interventions led to significant improvements in academic performance.

Through the Fellowship Program, Yuva Unstoppable created a channel for youth to drive social change and contribute effectively to the educational development of underprivileged students. The program not only imparted value-based education but also focused on personal hygiene, health, and character building. The Fellows served as role models and mentors, nurturing a generation of confident, knowledgeable, and socially responsible individuals.

Yuva Unstoppable continues to make a positive impact through its Fellowship Program, working towards creating a brighter future for underprivileged students by ensuring comprehensive development, imparting values, and facilitating personal growth.

PROJECT **LEPROSY**

Yuva Unstoppable is dedicated to improving the lives of individuals affected by leprosy through the Leprosy Project. The goal is to raise awareness, provide education, and promote early detection and treatment of leprosy. By working closely with communities, we aim to reduce the stigma associated with leprosy and ensure that affected individuals receive the support and care they need. Understanding the disease, promoting personal hygiene and cleanliness, and engaging volunteers and community leaders to drive change at the grassroots level.

Through our Leprosy Project, we strive to empower communities, promote early detection, and provide the necessary resources and support for affected individuals. The aim was to break the barriers of stigma and ensure that every individual receives the care and respect they deserve.

The aim was to break the barriers of stigma and ensure that every individual receives the care and respect they deserve.

HPV **VACCINE**

The program aims to raise awareness among stakeholders about HPV infection and related conditions.

The HPV vaccine program initiated by Yuva Unstoppable is making a significant impact on the lives of eligible government school girls in Lucknow, Uttar Pradesh. The prevalence of the Human Papillomavirus (HPV) as a sexually transmitted infection poses a major health concern, with HPV types 16 and 18 being the primary cause of cervical cancer cases in India.

With the support of the Hon. Governor UP Anandiben Patel and the UP Government, the program is successfully promoting the uptake of the HPV vaccine among government school girls. Doctors at Dr. Ram Manohar Lohia Hospital administer the vaccinations, ensuring a safe and effective immunization process.

With the support of the Hon. Governor UP Anandiben Patel and the UP Government, the program is successfully promoting the uptake of the HPV vaccine among government school girls.

The program's goals are multifold: to vaccinate government school girls, prevent HPV infections, and safeguard against associated diseases such as genital warts, anal cancer, mouth, throat, head, and neck cancer. Additionally, the program aims to raise awareness among stakeholders about HPV infection and related conditions.

By vaccinating girls at an early age, the program aims to reduce mortality rates in females aged 9 and above, ultimately working towards the prevention and control of cervical cancer.

Through this comprehensive initiative, Yuva Unstoppable is actively contributing to the overall health and well-being of government school girls in Lucknow. By providing access to preventive healthcare and raising awareness about HPV, the program strives to empower young women and create a future where the impact of HPV-related diseases is minimized.

NUTRITION

the Yuva Unstoppable Nutrition Program has a holistic impact on children's health and development. By ensuring well-nourished mothers, building immunity, supporting brain and organ development, and improving activity levels and cognitive functioning, the program contributes to the overall growth, health, and future prospects of the children. The Yuva Unstoppable Nutrition Program has a significant impact on children's health and well-being. By focusing on providing proper nutrition to children, the program brings about several positive outcomes well-nourished women are better equipped to care for themselves and their families, including their children. When mothers receive adequate nutrition, it positively affects the health and development of their infants. Infants born to well-nourished mothers tend to have healthy birth weights, reducing the risk of malnutrition right from the start. The program helps in building strong immunity in children.

Proper nutrition ensures that children receive essential vitamins, minerals, and nutrients that boost their immune system. This helps protect them against various infectious diseases and strengthens their overall health. Adequate nutrition plays a crucial role in the proper development of the brain and vital organs in children. The program focuses on providing the necessary nutrients for optimal brain development, which positively impacts cognitive functioning, including memory, attention, and problem-solving abilities. Additionally, proper nutrition supports the development of vital organs, ensuring their healthy growth. This program improves children's activity levels and cognitive functioning. With access to nutritious meals, children have the energy to engage in physical activities, promoting their overall fitness and well-being. Additionally, proper nutrition positively impacts cognitive functions, enhancing a child's ability to learn, concentrate, and perform academically.

NUTRITION PROGRAMME **TESTIMONIALS**

Nisa Baru

“We are grateful to Rites and Yuva Unstoppable for providing us Nutrition kit. They provided us with a ration distribution kit containing essential food items, and hygiene products. This support not only relieved our immediate hunger but also helped me maintain my personal hygiene and dignity during challenging times. I am grateful to the organization for recognizing the unique needs of women.”

FLOOD **RELIEF**

The YUVA Unstoppable Flood Relief Project in Assam aims to provide immediate assistance and support to households affected by flooding. The project recognizes the urgent need for essential items such as dry rations and access to clean drinking water.

To address these needs, the project helps approximately 25000 people, ensuring that they have an adequate supply of food and essentials. The kits are carefully designed based on the data collected through interviews with flood-affected families, ensuring that they contain the necessary items to meet their immediate requirements. In addition to providing ration kits, the project also focuses on ensuring access to clean drinking water. This is achieved through the implementation of mechanisms for water purification, ensuring that the affected households have safe and clean water for consumption.

The YUVA Unstoppable Flood Relief Project takes a holistic approach by addressing the immediate needs of the affected households. By providing essential ration kits and addressing water purification needs, the project aims to alleviate the hardships faced by the flood-affected communities in Assam.

Random Act of Kindness

Chappal Distribution
Tarpaulin Distribution
Chaniyacholi Distribution
Diwali- Kids Jewellery making
Sweater Distribution (Samji Patel)
Cradle Distribution

CHAPPAL **DISTRIBUTION**

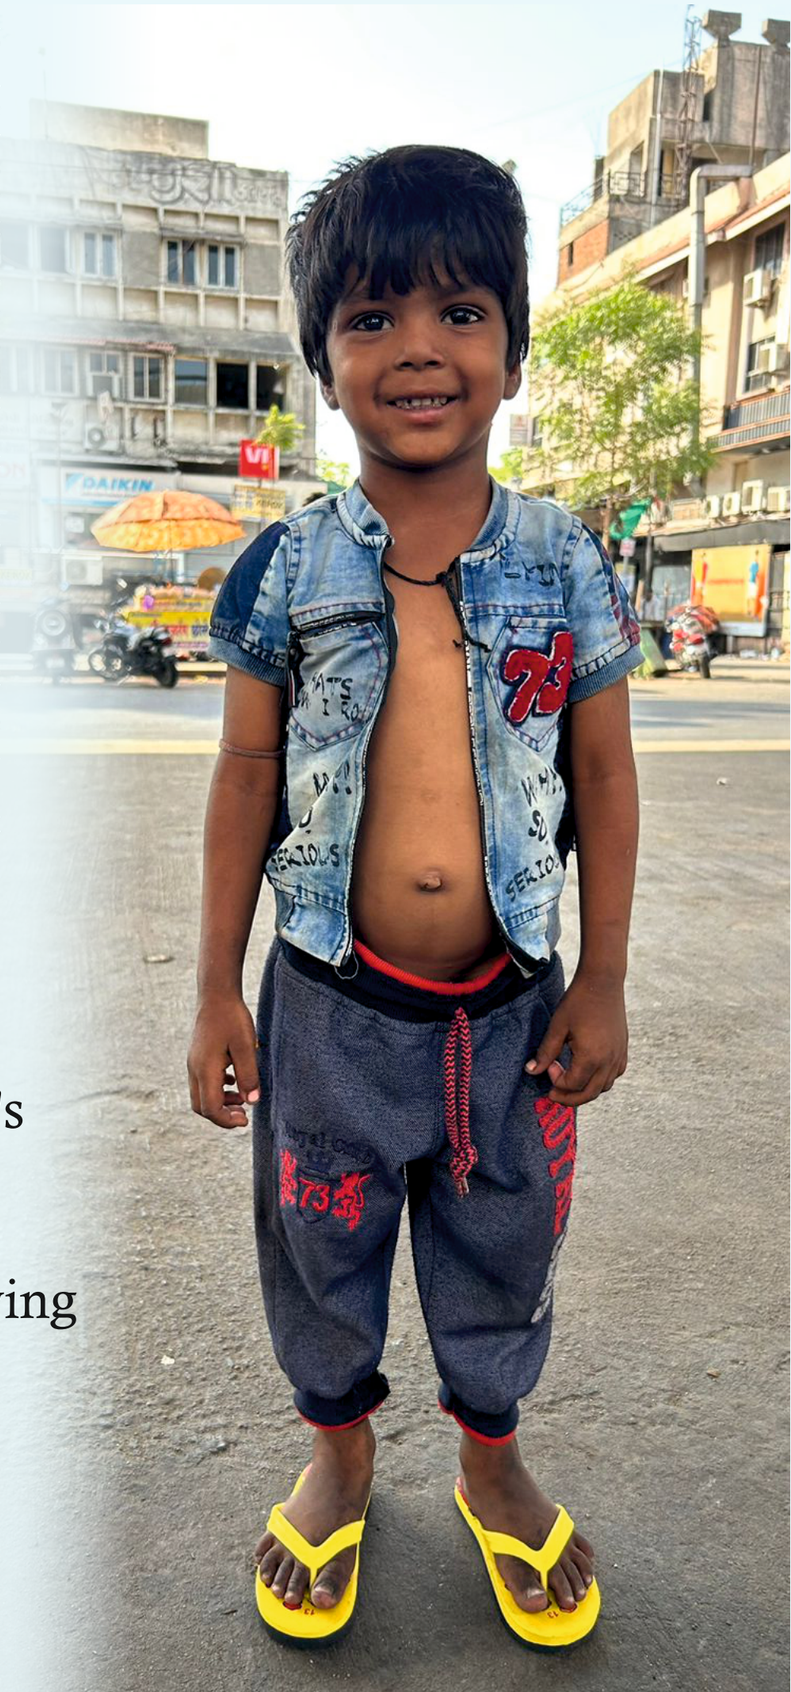

Yuva Unstoppable conducted an initiative called 'Chappal for Summers' with the aim of bringing joy and providing relief to homeless people in the city. As part of this initiative, they donated footwear, specifically chappals (slippers), to those in need. During the scorching summer months, walking barefoot on hot pavement can be uncomfortable and even harmful. By distributing chappals, Yuva Unstoppable aimed to protect the feet of homeless individuals from the intense heat of the sun. The act of providing footwear not only offered physical comfort but also brought smiles and joy to the recipients. It demonstrated care and empathy towards those who often face challenges and hardships in their daily lives. 'Chappal for Summers' reflects Yuva Unstoppable's commitment to making a positive impact and improving the lives of marginalized communities.By addressing a basic need and promoting the well-being of homeless individuals, this initiative contributed to their overall comfort and dignity.

Through such acts of compassion, Yuva Unstoppable exemplifies the power of small gestures in making a meaningful difference in the lives of others.

'Chappal for Summers' reflects Yuva Unstoppable's commitment to making a positive impact and improving the lives of marginalized communities.

TARPAULIN **DISTRIBUTION**

Yuva Unstoppable, in collaboration with TIPSON Company, has successfully completed a significant initiative called the Tarpaulin Distribution Drive. This project aimed to address the needs of homeless individuals and families who lack proper shelter during rainy seasons. Over the course of three years, Yuva Unstoppable distributed a remarkable total of 5500 tarpaulin sheets to those in need at the grassroots level. The tarpaulin sheets serve as temporary shelters, providing protection and relief from the rain for homeless individuals and families. The Tarpaulin Distribution Drive exemplifies Yuva Unstoppable's commitment to improving the lives of marginalized communities and addressing their immediate needs. By providing tarpaulin sheets, the initiative offers temporary relief and protection during inclement weather, ensuring a safer and more comfortable living environment for those without a roof over their heads.

Through such compassionate initiatives, Yuva Unstoppable continues to make a meaningful difference in the lives of vulnerable populations, reaffirming their commitment to social welfare and humanitarian efforts.

This project aimed to address the needs of homeless individuals and families who lack proper shelter during rainy seasons.

CHANIYA CHOLI **DISTRIBUTION**

Yuva Unstoppable organized a special initiative called the "Chaniya Choli Distribution" to bring joy and celebration to school girls during the auspicious festival of Navratri. Navratri is a vibrant and colorful festival celebrated in various parts of India, particularly in Gujarat, where girls and women traditionally wear traditional attire such as chaniya choli. By providing chaniya choli outfits, Yuva Unstoppable not only encouraged girls to embrace their cultural heritage but also fostered a sense of inclusivity and happiness among the students. The initiative aimed to empower and uplift the girls by boosting their self-confidence and creating a sense of belonging during this festive occasion.

DIWALI **KIDS JEWELLERY MAKING**

The Kids Jewellery Making program aimed to provide children with a creative and educational activity that would not only enhance their artistic skills but also promote their cognitive development and self-expression. By learning the art of jewellery making, children had the opportunity to explore their creativity, improve their fine motor skills, and gain a sense of accomplishment through crafting beautiful pieces of jewellery. The program also encouraged the use of eco-friendly materials and sustainable practices, instilling in children the importance of environmental consciousness and responsible consumption. By emphasizing these values, Yuva Unstoppable aimed to create awareness among the children about the significance of preserving our natural resources and adopting sustainable habits.

Through the Kids Jewellery Making program, Yuva Unstoppable brought joy, creativity, and a sense of cultural celebration to children during Diwali. The initiative fostered a positive and inclusive environment where children could express themselves and embrace the spirit of the festival in a meaningful way.

SWEATER **DISTRIBUTION**

During the winter season, Yuva Unstoppable with the helping hand of Samji Shivji Patel took the initiative to distribute sweaters to children in need, aiming to provide them with warmth and protection from the cold weather. By distributing sweaters, Yuva Unstoppable aimed to address the vulnerability of children to cold-related illnesses and help them stay safe and well during the winter season. The organization identified communities and schools where children were most in need of warm clothing and collaborated with volunteers, donors, and local partners to gather and distribute the sweaters.

The distribution of sweaters not only provided practical warmth but also conveyed a message of care and support to the children. It helped instill a sense of belonging and encouraged them to attend school regularly, despite the harsh weather conditions. By ensuring that children are properly protected from the cold, Yuva Unstoppable aimed to contribute to their overall well-being and educational opportunities.

Yuva Unstoppable aimed to address the vulnerability of children to cold-related illnesses and help them stay safe and well during the winter season.

CRADLE **DISTRIBUTION**

Yuva Unstoppable is spreading joy and hope in Ahmedabad city. Yuva is donating Jula (Cradle) to those in need across various parts of the city. The initiative was to make a difference and bring smiles to people's faces. Donating cradles can be particularly beneficial for families with infants and young children who may be facing economic challenges. It not only provides a safe and comfortable place for babies to sleep but also shows empathy and support for those going through difficult times.

Donating cradles can be particularly beneficial for families with infants and young children who may be facing economic challenges.

BIRTHDAY CELEBRATION OF **NARENDRA SOMANI**

Yuva Unstoppable organized a meaningful event at an Anganwadi in Ahmedabad to celebrate patron Narendra Somani's birthday. Approximately 100 children, parents, and 25 Anganwadi workers attended the event to express gratitude for the Somani family's contribution to digital education. During the celebration, the family distributed 15 TVs to 15 anganwadis, benefiting over 1000 children.

Narendra Somani expressed his profound appreciation for the commendable work carried out by Amitabh Shah and the Yuva Unstoppable team. He hopes that his actions will inspire more people to contribute in their own unique ways to help children gain access to the necessary resources for their success and well-being.

ONE KIND ACT - CHARITY BIKE RIDE

The OKA bike ride served multiple purposes. It aimed to raise funds for Yuva Unstoppable's various educational programs and initiatives. These programs focus on providing quality education, digital literacy, infrastructure development, and overall empowerment to children from underprivileged backgrounds.

Additionally, the bike ride sought to create awareness about the importance of education and the need for support in uplifting the lives of disadvantaged children. It aimed to inspire individuals and communities to come forward and contribute to the cause, either through donations or volunteering their time and skills.

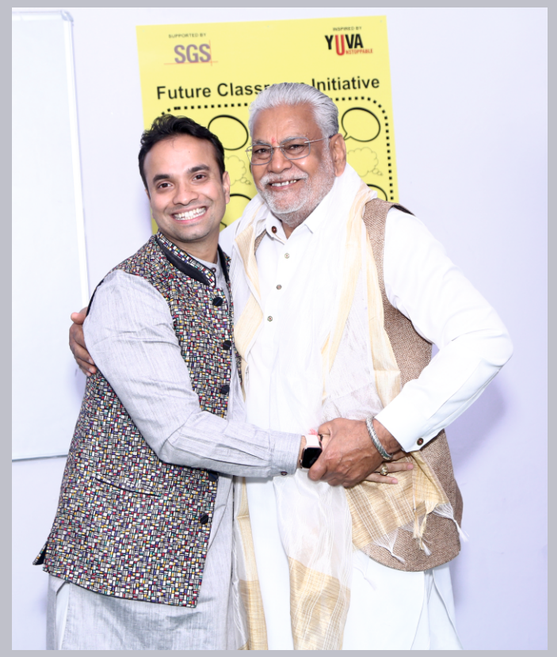

SHRI PURSHOTTAM RUPALA EVENT

The interaction between the delegation organized by Yuva Unstoppable and SGS and Union Cabinet Minister Shri Parshottam Rupala was significant in celebrating the impact of Yuva Unstoppable's 'School Transformation Program' in transforming 4100 schools. During the interaction, the 20-member delegation had the privilege of hearing directly from the Hon'ble Minister about his personal involvement in programs and initiatives that are dear to him. This provided valuable insights into the Minister's vision and priorities. Additionally, the Minister shared information about recently announced government development plans, highlighting the importance of collaborative efforts in scaling up and maximizing the impact of these plans. It demonstrates the power of collaboration between non-profit organizations, government officials, and private entities in driving positive change and making a lasting impact in society.

BK SHIVANI EVENT ON AMITABH SHAH'S BDAY

Amitabh Shah celebrates his birthday with BK Shivani. She shares her thought to focus on building good values from school days, as it's the person that matters more than their achievements. In India, emphasis on 'sanskar' (values) is important because 'sanskar se sansar banta hai (a good world is built on good values)

HARBHAJAN SINGH – MITALI RAJ EVENT IN MUMBAI

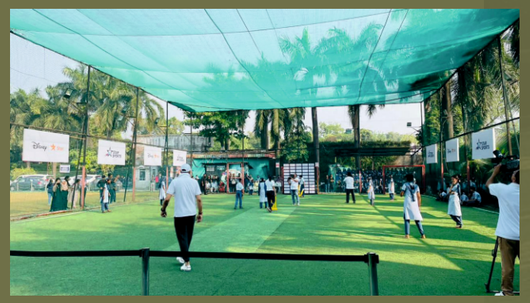

Yuva Unstoppable along with their partner Disney Star organized a special event for students from Raje Shivaji Vidyalay in Dharavi, Mumbai. Cricketing legends Harbhajan Singh and Mithali Raj visited the school on November 9, 2022, and spent a fun-filled morning with the school children. The legends spent time playing cricket with the children and shared life experiences and their insights on the game. The cricket game was followed by a heart-to-heart chat wherein the children got a first-hand chance to interact with the legends of the game.

Former Team India spinner Harbhajan Singh said, "I would like to thank Disney Star, along with Yuva Unstoppable, who gave me the opportunity, to come here and spend quality time playing cricket with these children. Whenever we meet with kids, the happiness and smiles we see on their faces are real victories in life. Today, their day was made along with mine."

Former India Women's captain Mithali Raj said, "Today was a surreal experience and it was amazing to interact with some talented students at Dharavi. I had a lot of fun playing and even shared a few cricket tips with them. Our country has plenty of talent, both girls and boys, and such kind of events will only inspire them to excel and work hard in everything that they want to do. Today was a special day that I will remember for a long time!"

JACKIE SHROFF VISITS YUVA UNSTOPPABLE SCHOOL

Jackie Shroff, along with Yuva Unstoppable, visited The Bank of America school to distribute tablets to children for their better education. The distribution of tablets plays a significant role in enhancing access to digital resources and improving educational opportunities for students.
Its endeavour demonstrates its commitment to promoting education and supporting the development of underprivileged children. By equipping them with tablets, they are enabling the students to embrace digital learning and unlock new avenues of knowledge.

Such initiatives contribute to a more inclusive and equitable education system, fostering the potential for academic growth and future success among the children. It is through collaborative efforts like these that we can make a positive impact on the lives of young individuals and create a brighter future for them.

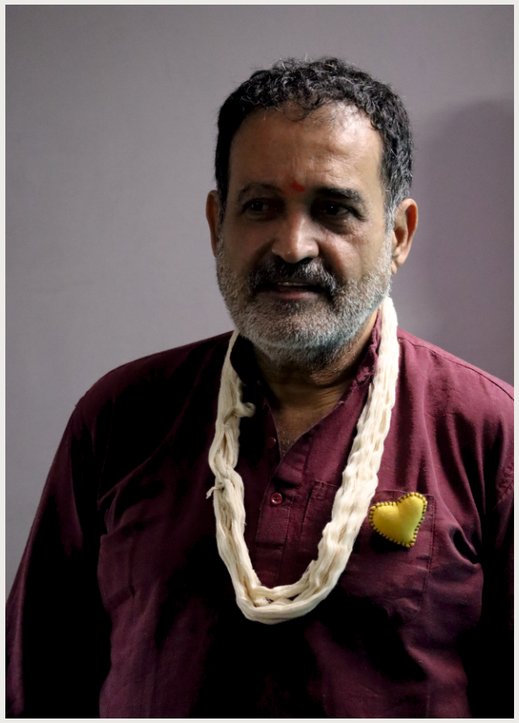

INFOSYS TEAM VISIT

Partnerships between organizations like Infosys Foundation and Yuva Unstoppable demonstrate the power of collaboration between the private sector and non-profit organizations in driving positive change in education and creating opportunities for the youth. By investing in STEM education, the program aims to prepare students for a future where problem-solving and innovation play a central role in driving progress and advancement.

MR. LIHAS TRIVEDI MAKES THE WORLD RECORD FOR YUVA

Marathoner Lihas Trivedi has been running for 53 consecutive days on a treadmill with YUVA Unstoppable. Lihas claimed to have broken the Guinness World Record of 52 days of consecutive running on the treadmill at the Anytime Fitness gym in Vastrapur.

GUJARAT CM RECOGNIZES MR. AMITABH SHAH WITH AN AWARD

"Mr. Amitabh Shah is awarded by Guj CM Bhupendra Patel for noble work in the betterment of society"
Be the change you want to see in the world. Founder of Yuva Unstoppable, Mr. Amitabh Shah exactly does this by putting his relentless efforts into social work. He just believes in helping and giving. Chief Minister of Gujarat, Mr. Bhupendrabhai Patel gave the award to Mr. Amitabh Shah for all his noble work.

FOUNDER AMITABH SHAH MEETS UNION CABINET MINISTER SMRITI IRANI

Invest in the girl child, it will take the country far ahead was the clear and simple message shared by Union Cabinet Minister and Head of Ministry of Women & Child Development Smriti Irani.

NGO Founder Amitabh Shah Takes Yuva Unstoppable Scholars And Philanthropists To Meet Union Cabinet Minister Smriti Irani. Invest in the girl child, it will take the country far ahead was the clear and simple message shared by Union Cabinet Minister and Head of Ministry of Women & Child Development Smriti Irani when she received and hosted a delegation of philanthropists and patrons of Yuva Unstoppable led by its Founder Amitabh Shah on 1st February 2023 in New Delhi. The team of 15 philanthropists included leading corporate and NGO representatives who shared their work and experiences in the development sector in India with the Hon'ble Minister.

Stories of Change

Meet Thakkar
Kanishk Gupta
Bansi Bhuva

"I thought of quitting when I didn't get through twice, but various mentoring sessions with corporate leaders organized by Yuva helped me build a positive mindset. Small encouragement & kind words in the right way can go a long way. I aim to support 10 more students like me in next 3 years"

Meet Thakkar

Meet Thakkar, a bright Scholarship Student, who embarked on a life-changing journey with Yuva Unstoppable as a scholarship student back in 2016. Hailing from a modest background, Meet's father, the sole breadwinner, worked in a small retail shop, making it financially challenging to afford Meet's education. However, Meet's aspirations were not hindered by these circumstances, he dreamed of becoming a Chartered Accountant and was determined to make it a reality. With unwavering dedication and an unyielding spirit, Meet immersed himself in his studies. He tirelessly pursued his goal, overcoming obstacles with every step. Years of hard work paid off, and Meet achieved his dream of becoming a successful Chartered Accountant.

Today, Meet is working as an Assistant Manager at Adani Group, a prominent organization, with a remarkable salary package of 10 LPA. His accomplishments are a testament to his resilience and perseverance.

Meet's journey doesn't end with personal success. He understands the significance of giving back and the power of kindness. True to his compassionate nature, from his very first salary, Meet selflessly pledged INR 25,000 to support the education of a deserving child, continuing the chain of kindness that Yuva Unstoppable instilled in him.

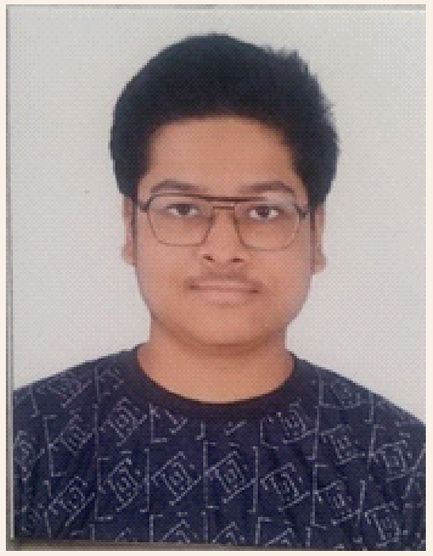

Through his remarkable journey, Meet Thakkar not only achieved his dreams but also became a beacon of hope for countless others. His story emphasizes the importance of education, resilience, and the ripple effect of small acts of kindness, leaving an indelible mark on the world.

Stories of Change

Meet Kanishk Gupta, one of our exceptional scholarship students, who has cleared the JEE 2023 Exam with 99.70 Percentile and has secured a well-deserved admission to IIT. With this remarkable achievement, Kanishk has made his entire family proud. He is a true example of resilience and unwavering dedication.

Kanishk's journey began with Yuva Unstoppable after receiving a scholarship in the 11th grade. After completing 10th grade, Kanishk had a strong desire to become an engineer. His father's worked as an auto driver and it was very challenging for the family to afford the coaching fees that was the time when he received a scholarship from Yuva. With two years of hard work and unwavering dedication, Kanishk Gupta cleared the JEE 2023 exam, fulfilling his goal of getting into IIT. Kanishk wishes to make a positive impact on the lives of other children by providing them with support, guidance, and opportunities once he becomes a successful Engineer.

Kanishk's inspiring journey serves as a testament to the incredible things that can be achieved through hard work and unwavering focus, even in the face of adversity. He stands as a shining example and a true inspiration for all of us.

Kanishk Gupta

Dr. Bansi Bhuva

Dr. Bansi Bhuva's life took a tragic turn when she lost her parents at a young age, leaving her in the care of her grandparents. Despite facing financial constraints, Bansi held onto her unwavering dream of becoming a doctor. She took a chance and applied for a scholarship from Yuva Unstoppable, an organization dedicated to empowering underprivileged youth. With their support, Bansi's dreams began to take shape as she pursued her medical education with relentless hard work and dedication. The scholarship not only provided financial assistance but also served as a source of inspiration. Overcoming numerous obstacles along the way, Bansi proved that with determination and support, she could fulfill her lifelong aspiration and became a beacon of hope for others facing similar challenges.
