

## School Selection Criteria

Yuva Unstoppable utilized the following criteria in the selection of the School Property:

- Government Run School / Municipal School
- Does not have any government aid or grants
- Presence / ownership of minimum physical infrastructure (like land and building)
- Have a boundary wall around the campus
- Caters to lower/lower middle strata of society
- Located within 1-2 hours driving distance from cities (semi urban areas)
- Have less than adequate access to potable water
- Has some power supply (at least for some time during the day – for the water supply mechanism to work)
- Either do not have toilets or toilets that need repair/up gradation, due to missing pipeline, tiles/flooring, doors etc.
- If the schools are currently maintained even if there is an infrastructure development need. We consider various factors like the lobby cleanliness, sweeper's attendance and relationship with school management etc. to check and rate the school for its maintenance plan
  - A committee will be formed comprising of representatives from school authority, students, parents who will ensure that the infrastructure is maintained
- Are willing to, and are capable of mobilizing Parents Teachers Association/community support
- Principal/faculty is willing to take up responsibility for maintenance, security of assets and sustainability
